MOBILITY MEETS
MASTERY, **ROLL IN**
FOG OUT.

ROAMING SUPERIOR

Envision Sentry as an elite mobile guard, always primed to unleash a torrent of protective fog wherever danger emerges.

Site recently compromised? Operating in a transient location? Sentry doesn't just adapt, it dominates. Housed in its formidable flight case, it's designed to be wheeled into the heart of vulnerability, instantly converting exposed spaces into bastions of safety.

There's no time-consuming installation. Simply plug it in, direct its fog-stream, and command the battlefield. The accompanying remote offers controlled mastery from afar, and its seamless connection to monitoring centers means you're always backed by an alert watchtower.

Discover Sentry: where unparalleled mobility meets impenetrable defense.

PERFORMANCE

- Mobility meets mastery.

FEATURES

- A self-contained loss prevention platform
- 50 second initial burst for maximum smoke generation in risk critical areas
- Minimum 40 minutes off-mains operational capability
- Fires up to 5 times on a single fluid installation
- High visibility to decrease threat potential
- Camera fitted for event capture
- 4G modem for cloud connectivity
- Remote control for easy arming/disarming
- Supports automatic re-firing via screen-sensor technology
- £10 million product and public liability insurance
- Comprehensive warranty available.

CONSTRUCTION

- Rugged flight case for security and transportation
- Wheels for easy transportation and positioning
- Machined steel heater block allows use of most persistent smoke chemical.

FUTURE COMPATIBILITY

- Fully integrated with *Sentience Programme*.

STANDARDS COMPLIANCE

- CE Marked.

FLUID

- 1,000ml fluid system.

DIMENSIONS

- 1200(H) x 56(D) x 53(W) cm
- Weight: 65kg - mobile flight case (no heavy lifting required)!
